## Chelsea roars

### Lion's Head Condominium Chelsea

Ten years after Chelsea started oozing style, it's still on the upswing. When construction is completed in 2006, this doorman building will offer 67 units right in the heart of all the hipness. From 714-square-foot studios starting at \$500,000, up to three-bedrooms topping 2,300 square feet and running \$2.58 million, every apartment will include "smart wiring," and access to a roof garden.
